Head Teacher: Mrs Trudie Harkin

Monday 30th March 2020

Dear Parents,

We have a small number of children of key worker parents attending school at present, and this is in line with government guidelines. We thank you for taking the necessary steps to arrange child care for your child. The vast majority of children are being home schooled and we appreciate this also provides its own stresses and challenges. We know you are all doing your best and will ensure your child is completing the work we have set at their own pace. Please do not worry if they are reluctant to do the work set. 1-2 hours a day is the target. Make sure they complete some physical activity too. I know some of you are using the Joe Wicks daily PE sessions online (You Tube). Keep your photos coming.

We have some extra creative Easter activities you may wish to complete at home, see separate email. Also some writing activities from Miss Perkins. We will be posting and emailing additional work too should you need it, or you can save this for after Easter. If you have any questions please get in touch through the office admin email account, teachers will respond.

Take a look at the school website, we are putting your photos online weekly.

We are being asked to help further by keeping the school open, when possible, during the Easter holidays for key worker parents.

If you require this help during the holidays, please get in touch urgently. We have a number of volunteers within the staffing structure who can help keep the school open for a number of days should you need this child care. Each case will be considered in turn and we will let you know the days we are open.

Please do get in touch if you need any help and advice, someone is here daily. Teachers will be working at home if they are not here in the flesh!

Take care and hopefully we will see you soon,

Mrs Harkin
Head teacher
